

Laser Multiplexer

“ HA - NA - BI ”

HA-NA-BI will save your time for troublesome laser alignment.
Using R001 receptacle collimator for single mode fiber,
you can get the combined laser easily.

【Features】

- Easy alignment
- High coupling efficiency
- Available custom wavelength
- Customize upon request

【Applications】

- Excitation
- Holography

SPECIFICATIONS

Wave Length nm	405	488	532	633
Efficiency %	> 30	> 30	> 30	> 30
Size (W x D x H) mm	96 x 60 x 37			
Laser PW mW	< 100			
Fiber Type	SMF - FC @633 (MMF is also available)
